Re: Food Compliance of PTFE Coated Fabric

To Whom It May Concern:

Saint-Gobain Performance Plastics Ireland based in Kilrush Business Park, Kilrush, County Clare, Ireland manufactures a wide variety of products for use in the food processing industry. These high performance products are suitable for use in thermally extreme environments. Most of these products consist of woven fiberglass substrate, coated or laminated with PTFE.

This letter confirms that our **PTFE Coated Fabric** products meet the EU guidelines of COMMISSION REGULATION (EU) **No 10/2011; 1282/2011** for plastic materials and articles intended to come into contact with food and the EU regulation **1935/2004/EC** for materials and articles intended to come into indirect and direct contact with food, EU regulation **2023/2006/EC** on good manufacturing practice for materials and articles intended to come in contact with food.

Determination of the suitability of specific products for use in a particular application is the ultimate responsibility of the end-user.

Yours sincerely,

Jonathan Keane
Quality and Technical Manager
Saint-Gobain Performance Plastics
