

QUALITY CERTIFICATE

HOSE TYPE:	AFI/20 3HW
APPLICATION	Mandrel built glassfibre covered cooling water hose for the glass and manufacturing industry. The cover of the hose resists to steel splashes. Electrical resistance to perforation: 25 kV according to EN 61386-1.
TUBE	White smooth rubber with insulating properties and resistant to heat.
REINFORCEMENTS	High tensile textile plies.
COVER	Special coloured rubber, insulating and heat resistant. External glassfibre ply treated with self-extinguishing rubber resistant to radiant heat up to 600 °C.
WORK PRESSURE	20 bar
MIN. BURST PRESSURE	60 bar
TEMPERATURE	Max. temperature of the conveyed fluid: 120 °C.
