

ROLLER MILL BELTS

Roller mill belts

Roller mill machines are widely used in food-processing industries, for various applications such as grinding grains and barley to make bread, flour and beer. These machines may also be used to produce a variety of powders and chemical products.

Megadyne Double Sided Roller Mill Belts are used in roller mills (food, corn, fruit, rice, flour, etc.) where the backside pulley has a reverse direction and relative slippage is necessary when the rolls are jammed.

Roller Mill Belts are available either Synchronous (8M, STD8 or 14M) on one side and Poly-V (PV-K or PV-L) on the other, double-sided synchronous or double-sided ribbed (PV-L). The ribbed profile allows functional slippage under jamming conditions and absorbs resulting torque spikes.

Product

SYNCHRONOUS WITH PV BACK

The powerful solution.
When both slippage and power are required, this is the best solution.
Synchronous side available in either RPP or STD profiles.
Ribbed side available in either PV-K or PV-L profiles.

DOUBLE SIDED SYNCHRONOUS

The standard solution.
A complete range of belts, available in either RPP or STD profiles.
May be manufactured in different structures: standard, Silver or Gold.

DOUBLE SIDED POLY-V

The silent solution.
For applications where slippage is the name of the game and noise needs to be limited.
Available in either PV-K or PV-L profiles.

CASE STUDIES

Application:

Roller mill

Previous drive:

Competitor's standard synchronous belt with PV back

Previous drive problems:

The high load was causing pulley wear and tooth jumps that damaged the cords and consequently the belts.

Solution:

Megadyne's **SYNCHRONOUS 8M RPP GOLD WITH 12-RIBS PV-L**, with its high breaking strength cords.

Application:

Roller mill

Previous drive:

Competitor's set of synchronous belts with PV back.

Previous drive problems:

Tooth jump and requirement for increased power transmission within a limited amount of space.

Solution:

Megadyne's **35-RIBS-DOUBLE SIDED PV-L** for a smooth, powerful and narrow drive.
